amg
at least one grate for supporting said food product; said grate being removably attached to said at least one rod, said rod being configured to rotate together with said disc; wherein said at least one rod is inserted into said grate along a central line of said grate, wherein said grate is rotated around said axis of said at least one rod, wherein said rod is displaced between an interior wall of said compact oven and said rotatable disc, and wherein said rod and said disc are detachably mounted within said compact smoking oven so as to allow said rotatable food support to be removable from said compact smoking oven without disassembly for loading and unloading of said food product.

32. (Twice Amended) A rotatable food support in detachable combination with a compact smoking oven, comprising:

en
at least one grate for supporting a food product to be smoked in said compact smoking oven, said grate being rotatably mounted on at least one rod located within said compact smoking oven, said rod having an axis and being rotatable about said axis;
at least two rotatable discs, said grate being mounted on said rod between said two rotatable discs, at least one of said discs being movable along said rod in an axial direction so as to allow removal of said food product from said grate;
wherein said discs are detachably mounted within said compact smoking oven so as to allow said rotatable food support to be removable from said compact smoking oven without disassembly for loading and unloading of said food product.

E3
35. (New) A rotatable food support in combination with a compact smoking oven in accordance with claim 33, wherein said at least one grate for supporting said food product is entirely
